

## YIELD Hub Technical Support Services

Tailored support to design, coordinate, and deliver multi-stakeholder initiatives

Since 2022, YIELD Hub has supported over 120 organisations across Africa, Latin America, South Asia, and Europe to strengthen youth partnership and institutional practice. We help partners convene diverse stakeholders, translate evidence into action, and co-create solutions that deliver lasting systems change.

## Our Approach

We bring a youth-centred, systems-level lens to every engagement, combining strategic coordination, design expertise, and practical implementation support. Our work is guided by three principles:

### Systems-level, youth-centred problem-solving

Convene the right actors, tackle root causes, and embed solutions in live programmes for structural, collaborative change.

### Evidence into action

Translate research and learning into practical strategies, tools, and outputs that accelerate measurable impact.

### Proven and adaptable across contexts

A trusted model that has worked with 150+ organisations in four regions, adaptable to different sectors and operating environments.

## What Partners Say

*"This [...] has motivated us to explore more deeply with our grantee partners and funder colleagues about the important issue of equitable youth compensation in the AYSRHR ecosystem. We want to be more intentional as a funder and develop a thoughtful approach, while also respecting organizations' autonomy."*

**Kathy Hall, Director of Equality for Women and Girls, The Summit Foundation**

*"These exchanges, combined with our internal co-creation sessions, have enabled our team to collaboratively design a Standard Operating Procedure (SOP) around fair compensation for youth researchers. This process reaffirmed the importance of youth-centred practices in research and global engagement."*

**Mildred Thabeng, Adolescent Accelerators Research Hub, University of Cape Town**

*"In taking lessons on youth transition from the YIELD Hub, we have intentionally devoted time and resources to heightening meaningful Coach involvement in all our interventions. This is helping us to promote a sustainable Coach recruitment and training model aimed at ensuring the personal and professional growth of all our Coaches."*

**Blessed Bukhosi Gumbi, Program Support Manager, Grassroot Soccer**

# Our Support Packages

All packages are virtual-first for global accessibility, with options for in-person or hybrid delivery. Each is tailored to your needs, scope, and level of collaboration.

Pricing is customised.

## 1-Month Intensive

- Rapid stakeholder alignment and onboarding
- Fast-track tool adaptation and communications support
- Focused design and coordination to co-create solutions
- Concise session report and co-developed blog

### Best for:

Short-term projects, pilots, urgent deadlines, or quick design needs.

## 3-Month Standard

- Balanced engagement with phased deliverables
- Tool adaptation and ongoing communications support
- Support from design through implementation planning
- Session report and co-produced blog

### Best for:

Programme preparation, structured planning, moderate time commitment.

## 6-Month Extended

- Full accompaniment from design through implementation
- Comprehensive tool adaptation and sustained communications support
- Active implementation assistance and iterative learning
- Comprehensive report and co-developed blog

### Best for:

Long-term programmes, multi-phase projects, or initiatives needing deep, sustained support.

## Why Partners Choose Us

Inclusive design and coordination

Tailored timelines and delivery modes

Deep experience in youth partnership and systems change

Outputs that amplify visibility and influence

A global team delivering value for money, saving you time, and ensuring efficient delivery
